URGENT

Dear Tucson Sector,

Please email me a map file (s) (PDF or JPG) showing the locations of current and proposed pedestrian fencing and vehicle barriers along the Arizona border with Mexico.

I would like these maps in order to submit important environmental information to you by the suggested deadline of June 30, 2008.

Please note: The general location-of-tactical-infrastructure map on your website appears outdated. For example, there is already a pedestrian fence along the border across the Altar Valley. The map on your website shows no such proposal.

Thank you for your kind assistance. I look forward to your reply.

Tony Povilitis
